## // BIOGRAPHY

I am currently a second year student at Mountview Academy of Theatre Arts specialising in Scenography (Set and lighting design) and LSDP. I also have basic carpentry, scenic art, prop making and stage management skills. I am a reliable, capable and confident person with strong communication skills and believe myself to be self-motivated with a hard working approach. I am able to work both independently and as part of a team, which is important in this department. I enjoy working with people and I am determined to work well and I am always willing to learn new skills and take on new challenges. I enjoy working in theatre and one day hope to use my skills and adapt them into the world of film and television.
